The Cy Young Approach

Cy Young is still considered one of the greatest baseball pitchers who ever lived. The award that goes to the "pitcher of the year," the one who was the best, still bears his name. Every pitcher dreams of winning the "Cy Young Award."

Cy Young used to talk about how, in the early years of the game, pitchers had to finish each game in which they started.

"There was no such thing as 'relief,'" Young said.

"They left us in there and told us to pitch our way out of trouble."

Baseball is much more specialized now. Some players are paid to be only a "relief pitcher." However, sometimes the only way out of the difficulties we face is through them.

If you cannot call in a relief pitcher for your problem, you may need to take the Cy Young approach. Stay on the mound and pitch your way out of trouble.
